MID SEMESTER EXAMINATION SEPTEMBER - 2025

Name of the Program: **B. Tech. Civil Engineering**

Semester: V

Name of the Course: **General Geology**

Course Code: **TPE 302**

Time: **90 Minutes**

Maximum Marks: **50**

Note:

- (i) **Answer all the questions** by choosing **any one of the sub questions**.
- (ii) Each question carries **10 marks**.

Q1	(10 marks)	
(a)	What do you understand by geology? Describe the major branches of geology and their importance.	CO1
OR		
(b)	Discuss the scope of geology and its significance in Civil Engineering.	
Q2	(10 marks)	
(a)	Discuss the key factors and conditions that contributed to making Earth a life-supporting planet.	CO1
OR		
(b)	Discuss the Earth's rotation and revolution parameters, including their effects on day length, seasons, and climate.	
Q3	(10 marks)	
(a)	Describe the internal structure of the Earth, explaining the characteristics of each layer with the help of sketch diagram.	CO2
OR		
(b)	Discuss the differences between the lithosphere and asthenosphere and their geological significance.	
Q4	(10 marks)	
(a)	Explain the theory of plate tectonics and describe the different types of plate boundaries.	CO2
OR		
(b)	Define volcanism and explain the different types of materials ejected during a volcanic eruption.	
Q5	(10 marks)	
(a)	Define weathering and explain the different types of weathering processes.	CO3
OR		
(b)	Explain the role of weathering and erosion in soil formation.
