

Mid Semester Examination 2025

Name of the Program: B.Tech.(CSE)

Semester: 8TH

Name of the Course: Storage Networks

Course Code: TCS- 851

Time: 90 Minutes

Maximum Marks: 50

Note:

(i) Answer **all the questions** by choosing **any one of the sub questions**.

(ii) Each question carries 10 marks

Q1 10 Marks		CO-1
a)	Why isn't Fibre Channel used often for the internal drives inside system cabinets? List the four interconnects from slowest to fastest performance for storage networking applications.	
OR		
b)	Consider an Academic Institute ERP application. Design an Information Life Cycle (ILM) and describe how the value of the data might change over time.	
Q2 (10 marks)		CO-2
a)	Write a note on the following (any Two): i. Raid Controller ii. Helical Tape Technology. iii. Network Attached storage (NAS)	
OR		
b)	Illustrate storage centric architecture and server centric architecture in detail.	
Q3 (10 marks)		CO-3
a)	Illustrate the benefits of using RAID3 in a backup application?	
OR		
b)	DAS provides an economically viable alternative to other storage networking solutions. Justify this statement.	
Q4 (10 marks)		CO-3
a)	Illustrate factors involved in measuring disk drive performance.	
OR		
b)	What would you consider while choosing serial or parallel data transfer in a DAS implementation? Explain your answer and justify your choice.	
Q5 (10 marks)		CO-3
a)	Explain the process of data recovery in case of a drive failure in RAID 5.	
OR		
b)	Discuss RAID 10. What is striping and mirroring in RAID.	
Q6 (10 marks)		CO-1
a)	Explain the process of data recovery in case of a drive failure in RAID 5.	
OR		
b)	Discuss RAID 10. What is striping and mirroring in RAID.
